PRELIMINARY AMENDMENT

Commissioner of Patents
and Trademarks
Washington, DC 20231

Dear Sir:

Prior to substantive examination, please enter the following Amendment:

On page 1, before the title, please delete "TITLE OF THE INVENTION".

On page 2, line 14, please replace "all the" with - -at any- -.

On page 3, line 24, please replace "date" with - -data- -.

On page 4, line 10, after "box" please insert - -and diary- -.

On page 4, line 19, please replace "of" with - -related to- -.

In the Claims

On page 8, please replace "CLAIMS" with - - What is Claimed is - -

Please add the following new claims:

2. A service system for administering, storing, retrieving and distributing information securely over a computer network comprising:

- means for storing information;
- diary means for inputting and retrieving information related to a specific past, present, or future date from said means for storing information; and
- mailbox means for inputting information related to a specific future date into said means for storing said information.

3. A method for administering, storing, retrieving and distributing information securely over a computer network comprising:

- registering a password to gain access to a means for storing information;
- automatically creating a diary means for inputting and retrieving information related to a specific past, present, or future date upon registration of said password; and
- automatically creating a mailbox means for inputting information related to a specific future date upon registration of said password.

4. The method of Claim 3, further comprising restricting subsequent access to said diary means for inputting and retrieving information related to a specific past,

present, or future date and said mailbox means for inputting information related to a specific future date by use of said password.

5. The method of Claim 3, including maintaining on a computer network said means for storing information, said diary means for inputting and retrieving information related to a specific past, present, or future date, and said mailbox means for inputting information related to a specific future date.

6. The method of Claim 3, further comprising adapting said diary means for inputting and retrieving information related to a specific past, present, or future date to receive an inputted past or present date and information related specifically to said past or present date.

7. The method of Claim 6, wherein said inputted past or present date and information related specifically to said past or present date are automatically stored on said means for storing information.

8. The method of Claim 6, further comprising:

inputting said past or present date; and

automatically outputting and displaying information related to said past or present date on said diary means for inputting and retrieving information related to a past, present, or future date.

9. The method of Claim 3, further comprising adapting said mailbox means for inputting information related to a specific future date to receive an inputted future date

and inputted information related specifically to said future date.

10. The method of Claim 9, including automatically storing said inputted future date and said information related specifically to said future date on said means for storing information.

11. The method of Claim 9, further comprising automatically outputting and displaying said information related to said future date on said diary means for inputting and retrieving information related to said past, present, or future date upon the occurrence of said future date.

REMARKS

Prior to substantive examination, please enter this amendment into the record to place this application in proper form for review by the Examiner.

Respectfully submitted,

KING AND SCHICKLI PLLC
